Wildflower meadow wins honour

A WILDFLOWER meadow project has won its second award this month.

The East Tullos Burn Environment Improvements Project transformed a neglected spot into a meadow full of insects, birds and other wildlife. Aberdeen City Council environment committee vice-convenor Jean Morrison said the scheme scooped a Highly

Commended in the Sustainable Development category of the RSPB Nature of Scotland Awards.

Cllr Morrison said:

"This is another great award for the project and again is a fantastic tribute to everyone who has helped to make it the success it is."

The project also came top in the Herald Society Awards in the Environmental Initiative of the Year category earlier this month.
